EXECUTIVE SUMMARY

In my learning life and professional experiences, I can define myself as curious, active, planned and prone to teamwork. I can find solutions quickly thanks to my **analytical and solution-oriented thinking skills**. I trust my verbal and written communication skills, and I think that I can **easily adapt to different cultures and environments**.

In this context, I think that I can make a serious contribution to the company that I am a part of with my strong technical knowledge, applied trainings, project experience and work experience.
